By the Pond

Well another year is about to start and you wonder where the last one(s) went. At least it has been a mild winter so far. JoANN and I have not even put the covers on the ponds yet, It would be nice if we could get away without them this year. We'll see.

As usual we have several projects for this year and it will take everybody's participation to make them happen. We had great volunteers last year and I am hoping for the same this year. There is the Pond Tour, headed by Susan Brown, of course the annual auction in the spring, headed by Steve Castel, and the Show in the fall. Steve and I will head the committee for the show. We are hoping that dividing up the show tasks among several folks will make the job easier to get done. Marian is going to head up the volunteer committee so you can get with her about what you would like to do. There is plenty to go around and I hope everybody will consider getting involved this year.

Speaking of getting involved, there are a couple of important jobs that need to be filled. First, there is the job of Newsletter editor. Karla is stepping down after this issue. We all thank you for your efforts. The club has the program for this job and hopefully one of you will take on this task. Second, the office of Vice-president needs to be filled for the remainder of this term (until November) Hal Brown is head of the nominating committee and you can either contact him or any of the board members if you would like to run for the office. We will publish any names that are running in the newsletter next month and hold a special election at the February meeting.

Well, I am quite sure I have left something out, but I am sure someone will point it out to me. I am a pure blooded fish geek and not a corporate executive. I only know the basics of Roberts Rules and really have no intention of studying them this late in life. Like I said I am sure someone will let me know when I violate them. This is a "fish club" first and foremost. All of the officers are volunteers and know a lot about koi and koi keeping but not necessarily about corporations and how they are run. I will do my best to follow the "rules" but make no promises other than to try to make this FUN and educational and to answer any question you might have about Koi and their care.

That's all for now and we will discuss more on these subjects at the meeting on Sunday. Steve's place is always interesting and It is INSIDE. (big bonus) Please try to make the meeting and we will get everybody involved in the running of this club.....Later.....Gary

We are very fortunate to have three certified KHA's in our club. These folks are willing and able to help you with questions/problems with your fish or pond.

You don't want to miss this biennial event to visit some of our member's beautiful ponds and gardens. Whether you already have a pond, planning a pond or just want to escape to a little bit of paradise, we welcome you.

Koi have been kept for centuries. First for food to survive winters in inaccessible areas of Japan and then for enjoyment. The oldest known koi in captivity lived 226 years.
